

## Decorating eggs

Only if you have some spare eggs in the house... Take a couple of eggs and with the help of an adult place a piece of tape over both ends of the eggs and then prick the egg carefully with a pin and blow out the content... you can also use a straightened paperclip and place it in the hole and move it around to break up the yolk before blowing, once you have your empty egg carefully rinse the eggs with dish soap.

Now you can decorate as you wish...

You can paint them, I have included a recipe on how to make your own paints if you don't have any at home, you can glue fabric, feathers or ribbons on the eggs to decorate them, you can use a marker to draw a face on your egg... be as creative as you like.

Non baking paint recipe

2 cups of white flour

2 cups of cold water

Food coloring or tempera color

Pour the water into a large bowl; add the flour slowly stirring constantly. stir until it is totally smooth, divide into smaller bowls, plastic cups or a muffin pan and add food coloring or tempera colors to each. If you have newspaper cover the surface with it before starting as it will make the cleaning up process easier.

## Pin the tail on the bunny

Draw a picture of a bunny, as big as you can make it, and place it on the wall you can use blue tack or sticky tape, remember to do this with an adult. You will need cotton wool and a blind fold... if you don't have a blind fold you can use a scarf or clean tea towel. If you don't have any cotton wool you can draw and cut out a tail using paper instead... remember to stick something on the back of the tail (blue tack or sticky tape) so it sticks to the bunny. The person who sticks the tail closest to the right place on the bunny wins. Have fun!

## Shrove Tuesday

If you go online with a grown up to the this website :

**National Geographic Kids**

<https://www.natgeokids.com/uk/>

You will find Shrove Tuesday Facts and Activities and quizzes for children. You can use the tabs at the top to find the right activity or quiz for what you would like to learn about too.

**Now for the FUN part** 😊

## Making a Pancake

### Perfect pancake recipe!

Fancy joining in the fab pancake fun? Then get whisking and flipping with this six-step pancake recipe.

#### What you'll need:

100g plain flour

2 eggs

300ml semi-skimmed milk

Pinch of salt

1 tbsp sunflower/vegetable oil

Butter for frying

Bowl

Whisk/fork

Frying pan

Ladle

Fish slice

**Yummy toppings** - such as lemon, chocolate spread, marshmallows, fruit, or whatever you fancy!

1) Take a bowl and pour in the milk and oil, then break in the eggs. Now take the whisk and beat the ingredients together to make a frothy mixture.

2) Once that's done, take another bowl and mix together the flour and a pinch of salt with your hands. Messy!

3) Now slowly pour the liquid into the middle of the flour mixture, whisking all the time, until the batter you're making is quite runny. If it's a little lumpy, keep whisking away until your pancake mix is nice and smooth!

4) With an adult's help, warm the frying pan to a medium heat, then add a little butter. Once it's melted, ladle in enough pancake mix to cover the bottom of the pan, then tilt it in a circular motion so the mix spreads evenly. Now you're cooking!

5) Now for the fun bit! When your pancake starts to brown underneath, hold the pan handle in one hand, slide the spatula under the pancake and flip it over. Next, ask an adult to help you flip it the fancy way!

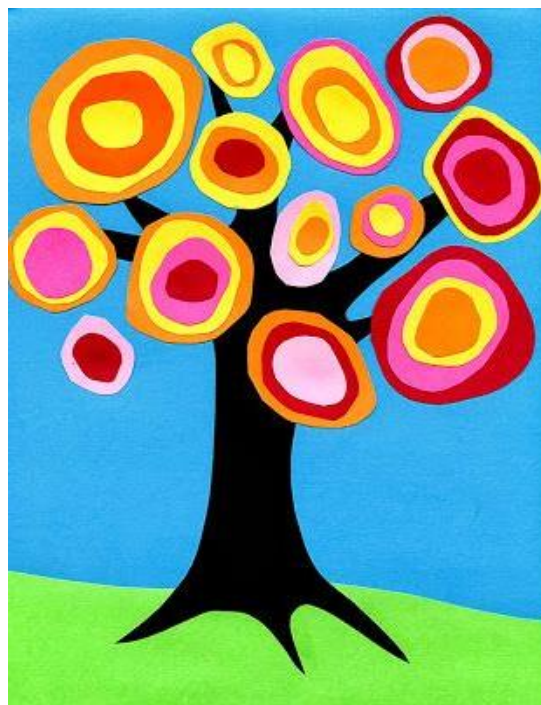

6) Repeat steps one to four for each pancake and stack them high! Traditional toppings are lemon juice and sugar. But you can also try chocolate spread, peanut butter, fruit, honey, whipped cream or a healthy dollop of yogurt. Tuck in and enjoy!

**I am sure they will be Yummy for your tummy**

# Creative task

Now that you have explored making circles using colours. Why don't you have a go at your cutting skills to create a picture like one of these or both.

You will need a pair of scissors (Parents please supervise), different coloured paper (or colour in white paper with your crayons or colouring pencils and then cut out circles) and a glue stick or PVA glue with a spatula or paint brush to use it.

For the black silhouette tree, you can draw the outline with a pencil and then cut it out and if you find it difficult to cut different sized circles free hand then you can draw outlines of the circles before cutting them.

Then stick them on a large sheet of background paper.

**Happy Crafting !**

(If possible, you can ask a grown up to take a photo of it and send it in to the school year 1 email.)

## Math Game

How many Easter eggs does teddy have?
