

Paper Plate Easter Bunny Craft

You will need:

1. Construction Paper
2. Pom Poms - a small pack with pom poms, pipe cleaners and googly eyes!
3. Pipe Cleaners
4. Googly Eyes
5. Small Paper Plates
6. Glue - we recommend glue which is stronger and better for gluing on pom poms and pipe cleaners which can be tricky to stay sometime

Method :

- **For the nose:** take 3 pipe cleaners and twist them around each other in the center so that they are connected/stuck together. The part you twist is the hidden part that will go under the nose (pom pom) and will be hidden. This will leave you with the whiskers sticking out on both sides.
- Then glue to the paper plate. Leave time to let dry as this step will require it to be glued well or the pipe cleaners will fall off.
- You can also glue with hot glue (which will stay better) but make sure adults do this part and then let the kids glue the pom pom on once the hot glue has dried and cooled.
- Once glue is dry from the pipe cleaners, now glue on your nose (pom pom)
- **For the ears:** Really all you need to do is cut out some ears from white construction paper and then cut out a smaller inside ear with a different colour. We chose pink and yellow.
- **For the eyes:** We used googly eyes and just glued them on but you could also use construction paper and make the eyes yourself.
- **For the mouth:** We simply just drew on the mouth with a black marker.
