

Easter Holiday Tasks Year 6

We would love to see all of your creations!

If you'd like, send us photos of your completed activities to year6jea@theparkfederation.org

REMEMBER NOT TO SEND PICTURES OF YOURSELVES OR FAMILY MEMBERS. JUST YOUR COMPLETED ACTIVITY WITH YOUR NAME AND CLASS.

There are a number of activities on the next few slides for you to complete over the Easter holidays.

Easter holidays:

Monday 6th April 2020 – Friday 17th April 2020.

Click on the link below to read the story of
Easter...

<https://www.topmarks.co.uk/easter/easterstory.aspx>

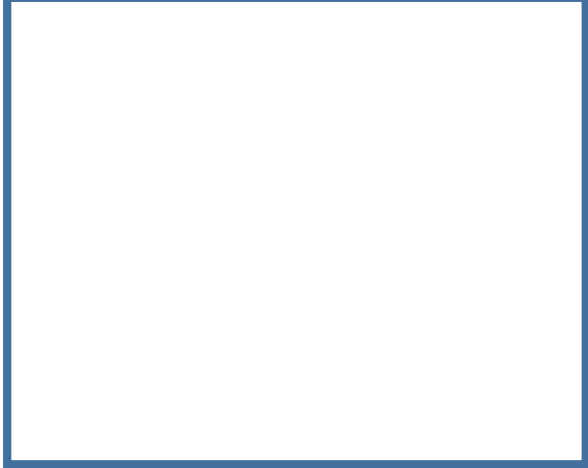

Now create a story board retelling the story of Easter.

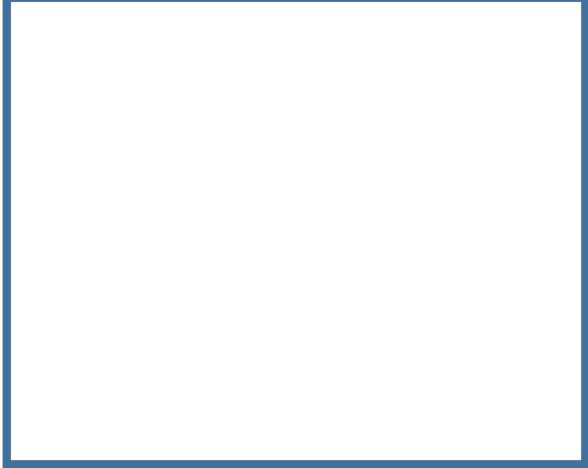

Template is on the next slide.

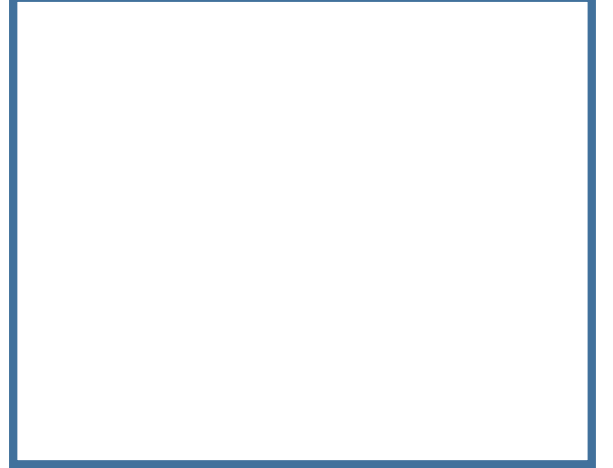

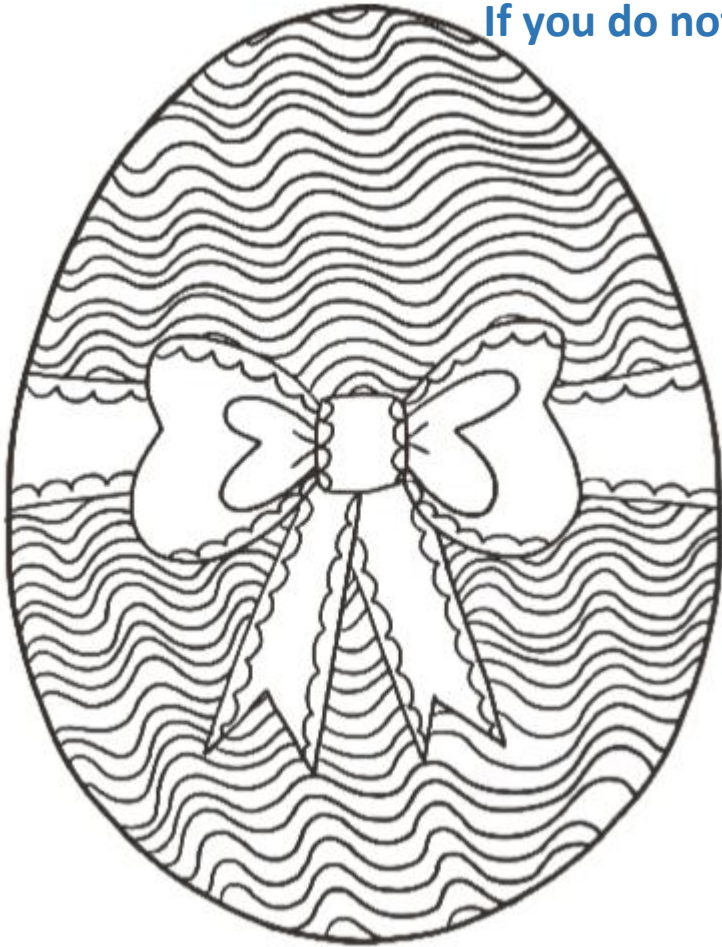

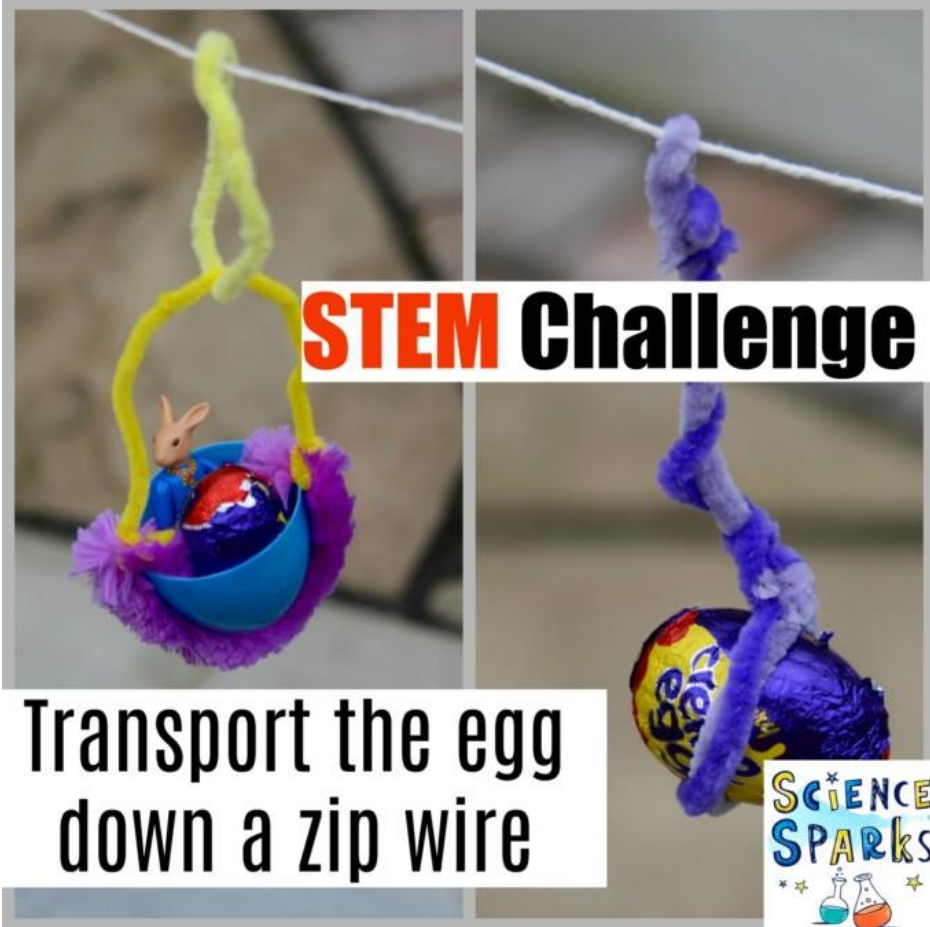

Click on the link below to access these images to print them out and colour them in.

<https://www.twinkl.co.uk/resource/t-t-26544-easter-egg-mindfulness-colouring-sheets> or type into google 'Easter Egg mindfulness colouring'

If you do not have a printer, you can trace or draw your own design to colour in at home.

An old tradition at Easter was to decorate hard-boiled eggs and roll them down a hill. The winner was the person whose egg reached the bottom first. Unfortunately, we can't roam freely at the moment, but we can still use eggs in a fun activity. For this activity, you could use hard-boiled eggs, chocolate eggs or even an egg-shaped pebble.

Egg zip wire

Can you build a harness or a basket to transport an egg down a zip wire? This is a great activity for learning about friction.

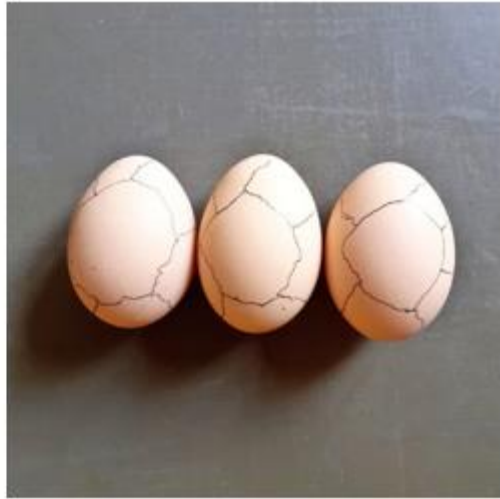

Friction is a force that slows down moving objects. Friction can also prevent objects starting to move. Smooth surfaces have less friction than rough surfaces.

Try changing the type of material used for the zip wire: it doesn't have to be wire - you could use string or knitting wool.

You can find more fun science investigations at <https://www.science-sparks.com/easter-stem-challenges/>

Due to the current circumstances, I understand that you will not be able to use eggs for this next activity. Instead you can make 3D eggs from cardboard or paper that you have lying around. 😊

1-Take an egg (or more) if you can get hold of any 😊 and boil it. Or you can make a 3D egg out of cardboard or paper. With a black marker draw some jagged lines like this

2- Using some yellow paint or marker draw an oval shape, this will be the body of the little chick.

3-Using black paint or black marker, fill in the area around the yellow oval within the jagged lines, like this:

4-Finally, draw the eyes and eyebrows with the black marker / black paint and the beak with red paint or marker.

Newspaper article

Task:

Your task is to write a newspaper article on the following:

An Easter Egg Hunt was due to take place today.

Unfortunately, this morning, it was discovered that all the eggs that had been hidden by the Easter Bunny have been taken!

It's a mystery... Who has taken them?

My Newspaper Report Planning page

Headline

Introduction:

**Briefly sum up what has happened.
Try to grab the reader's attention.**

Main ideas:

This tells the reader what
actually happened.
Remember to use facts, quotes
and eyewitness accounts

Conclusion: What could happen now?

Don't Forget:

Think about what your headline will be.

How will you start your report?

Think about how you will link your
paragraphs together.

On the next few slides,
you have two hands on
creative tasks.

Enjoy!

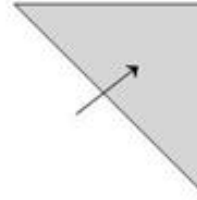

How to make a CHATTERBOX!

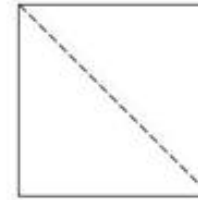

Instructions

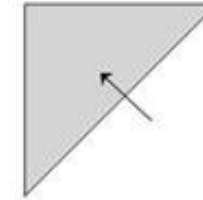

Take a square of paper.

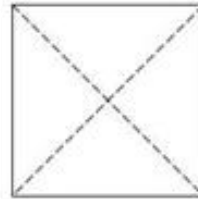

Fold it over like this.

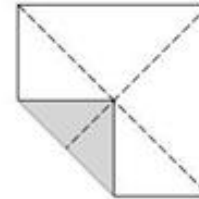

Unfold it.

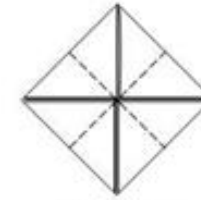

Now fold it the other way.

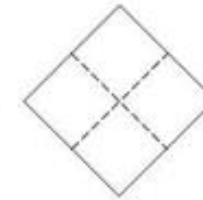

Unfold it and your paper should look like this.

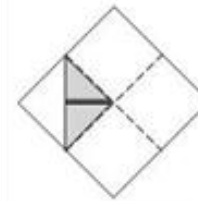

Fold all 4 corners to the center of the square so the points just touch it.

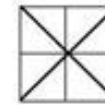

Your paper should look like this.

Flip your paper over so the folds you just made are turned down.

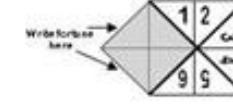

Fold the corners to the center again.

Your paper should look like this.

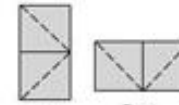

Write the numbers 1-8 as shown above. Two on each flap.

Add your 8 fortunes by lifting each flap and writing a fortune under each number.

Flip your paper over and add a color or a different object you can spell to each section.

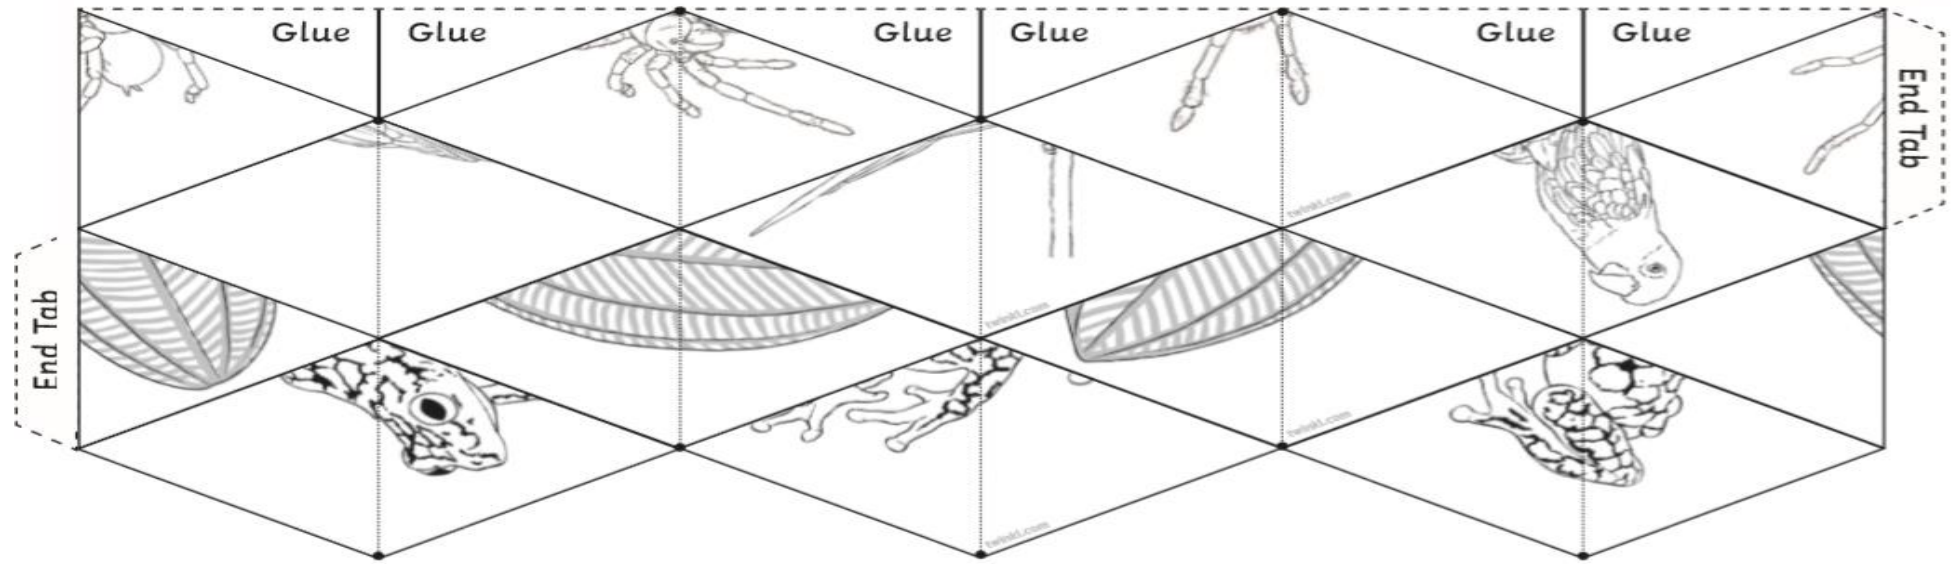

Fold it sideways like Figure 1 then unfold it. Now fold it up like Figure 2.

Put your fingers under the 4 open corners.

Here is how it looks finished and open.

How to Make a Flexangle

Note: For best results use thin card. Colour in each triangle of the flexangle. Make sure each triangle in a row is coloured in using the same colours. Each row can be different to one another, to make different patterns. All of the triangles in row A should look the same, all of the triangles in row B should look the same, and so on. You can also find a demonstration video [here](#).

1

After colouring the flextangle, cut the whole flextangle out around the edge.

2

Fold the dashed vertical lines towards you (a "valley" fold). Crease them well, then unfold to make the flextangle flat again.

3

Next, fold all of the diagonal lines away from you (a "mountain" fold) and crease them well. Make sure you fold both diagonals! Unfold the flextangle again.

4

Add glue to the tabs marked 'glue' and press the tube together to help it stick.

5

Carefully wrap the flexangle into a tube-like shape, matching dot to dot.

6

Add glue to the end tab and tuck it into the open end of the tube. Press the ends together to make sure it sticks well.

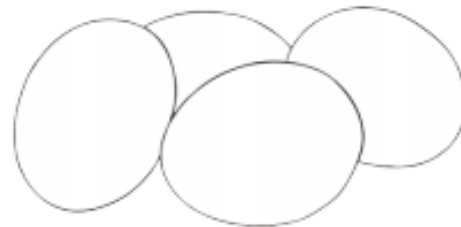

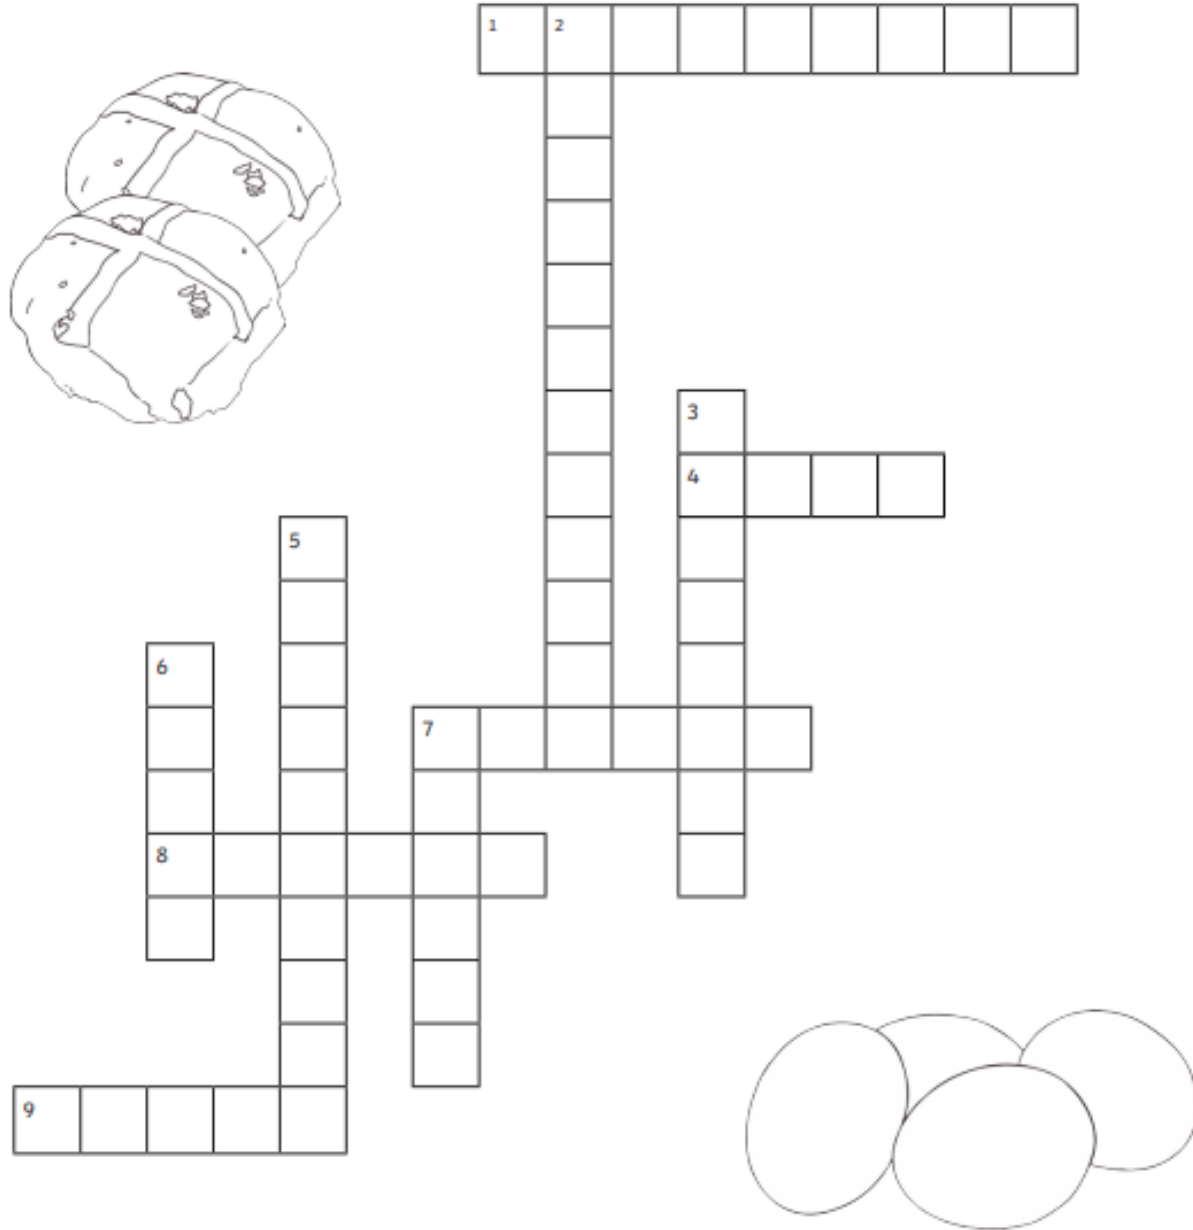

7

Let your glue dry and then have a go at playing with your flexangle. Can you see all of your different patterns?

Easter

Across

1. The main ingredient in Easter eggs. (9)
4. The shape of an Easter egg. (4)
7. This is used to collect Easter eggs. (6)
8. The season when Easter takes place. (6)
9. The animal who is said to deliver Easter eggs. (5)

Down

2. Special Easter cakes. (3,5,4)
3. The week before Easter Sunday. (4,4)
5. The day that Jesus died. (4,6)
6. Jesus was nailed to this. (5)
7. A special Easter hat. (6)

Dear Year 6,

I hope you have a lovely Easter break. I know it's hard right now but stay strong and we will get through this. Remember to stay safe and follow what the government have told us to do. These guidelines are not just for you, they are for everyone. If we all stick together and follow the rules, this will be over in no time. View all this extra time that you have been given as a blessing and use it to your advantage. **THAT DOES NOT MEAN PLAY PLAYSTATION/XBOX OR USE YOUR PHONE ALL DAY!** I mean, spend time with your family, read a book that's been sitting in the corner for so long, start writing a diary where you can express how you're feeling and maybe do some meditation or anything that helps you relax. Your family is feeling worried and stressed too so please be mindful of everyone's emotions around you and try to be as understanding and patient as I know you all can be! Stay smiling.

Hope to see you soon.

Miss Ramzan and the year 6 team. 😊

Stay Strong
BE
Positive
