

Dear 6 Tolkien,

How has your second week at home been? It is definitely feeling strange for teachers when we plan for your next week's work from home! Remember to keep up with it. We will find out if you are not doing it...

Exercise is really important. Some of you may have heard of Joe Wicks? He has been doing a lot of indoor P.E activities for children around the UK, so check out some of his videos on his video channel!

Make sure to keep up with the news. Newsround is changing their times as they know that children will be at home:

It means you can catch them more often during the day!

I will now proceed to tell a funny joke:

*What do you get when you cross a snowman with a vampire?*

*FROSTBITE*

If you are finding the work easy, then have a look at our suggested links. Why not simply Google KS3 work from BBC Bitesize so that you can get further ahead if you want the ultimate challenge!

Until next time!

Mr Ali
