Here are some more wonderful things that are happening in our world. On Friday, every one clapped and cheered the NHS workers. I hope you all cheered.

Have you drawn a rainbow to be displayed in your window?

On Saturday night I watched the international space station fly over my house. It was very bright. Did you know?

It flies around the world every 90 minutes.

It's 375ft long from end to end- that's about the size of a football pitch.

There are two bathrooms on board! There's also one gym and six sleeping quarters.

It flies through space about 250 miles from the Earth.

It has a crew of six people.
