LQ: Can I use a plan to write a setting description?

I loved reading this!

As you stroll you see fluffy clouds and fresh, green grass. The mountains are huge and colossal also there are hills to cover the sparkly and emerald castle. Whenever I bolt through the gardens, I can't believe I am in a shiny and glassy castle. The water stops immediately and I become shocked and amazed.

As you hear the birds chatter and chitter you can even hear the trees rustling wildly. Once in a blue moon you can hear complete silence. Often the water freezes and becomes frozen. Near I even freeze. Always I hear the castle being cleaned and dusted because the gleams of the castle shine and twinkle.

I can smell smelly and stinky moss. Also <sup>there is</sup> mist around the castle which brings my senses alive.
